Construct your future

Take your career to the next level and become a confident and capable leader. Get the skills you need to oversee successful construction projects from start to finish.

Practical skills

During this course, you’ll develop an understanding of building codes, occupational health and safety, and legal and financial requirements relevant to the building and construction industry. You will also gain the expertise required to select contractors, supervise works, and successfully liaise with clients.

Employment Outcomes

- Construction Project Manager
- Estimating Manager
- Project/Site Manager
- Registered Builder – Domestic or Commercial (other criteria apply – check with your relevant state or territory builders’ association/authority)

**Recognition of Prior Learning (RPL)**

We offer everyone the opportunity to apply for Recognition of Prior Learning (RPL) at enrolment. Students may be granted credit or partial credit in recognition of skills and knowledge gained through work experience, life experience and/or prior training.

**Entry requirements**

There are no pre-requisites or specified entry requirements for this qualification, however it is preferred that the candidate has undertaken lower level qualifications in the construction industry, or have relevant construction industry experience.

**Training and assessment methods**

A range of training and assessment methods will be utilised including written reports, training records, third party reports, question and discussions, written tests, work samples, projects and case studies.

**Fees and funding**

For the latest information on our course fees please visit our website [megtinstitute.edu.au/fees](http://megtinstitute.edu.au/fees). There are different types of Government funding available to assist you when you are studying. These vary from state to state. Eligibility criteria apply.
